Intro

Since 1990, IMDb has been the world’s most popular and authoritative source for entertainment information, fusing fandom, creativity, and technology to power the discovery of stories across all formats and media. Our brand identity reflects this legacy and the trust that hundreds of millions of customers worldwide place in us — from casual viewers to seasoned cinephiles, from emerging creators to studio executives.

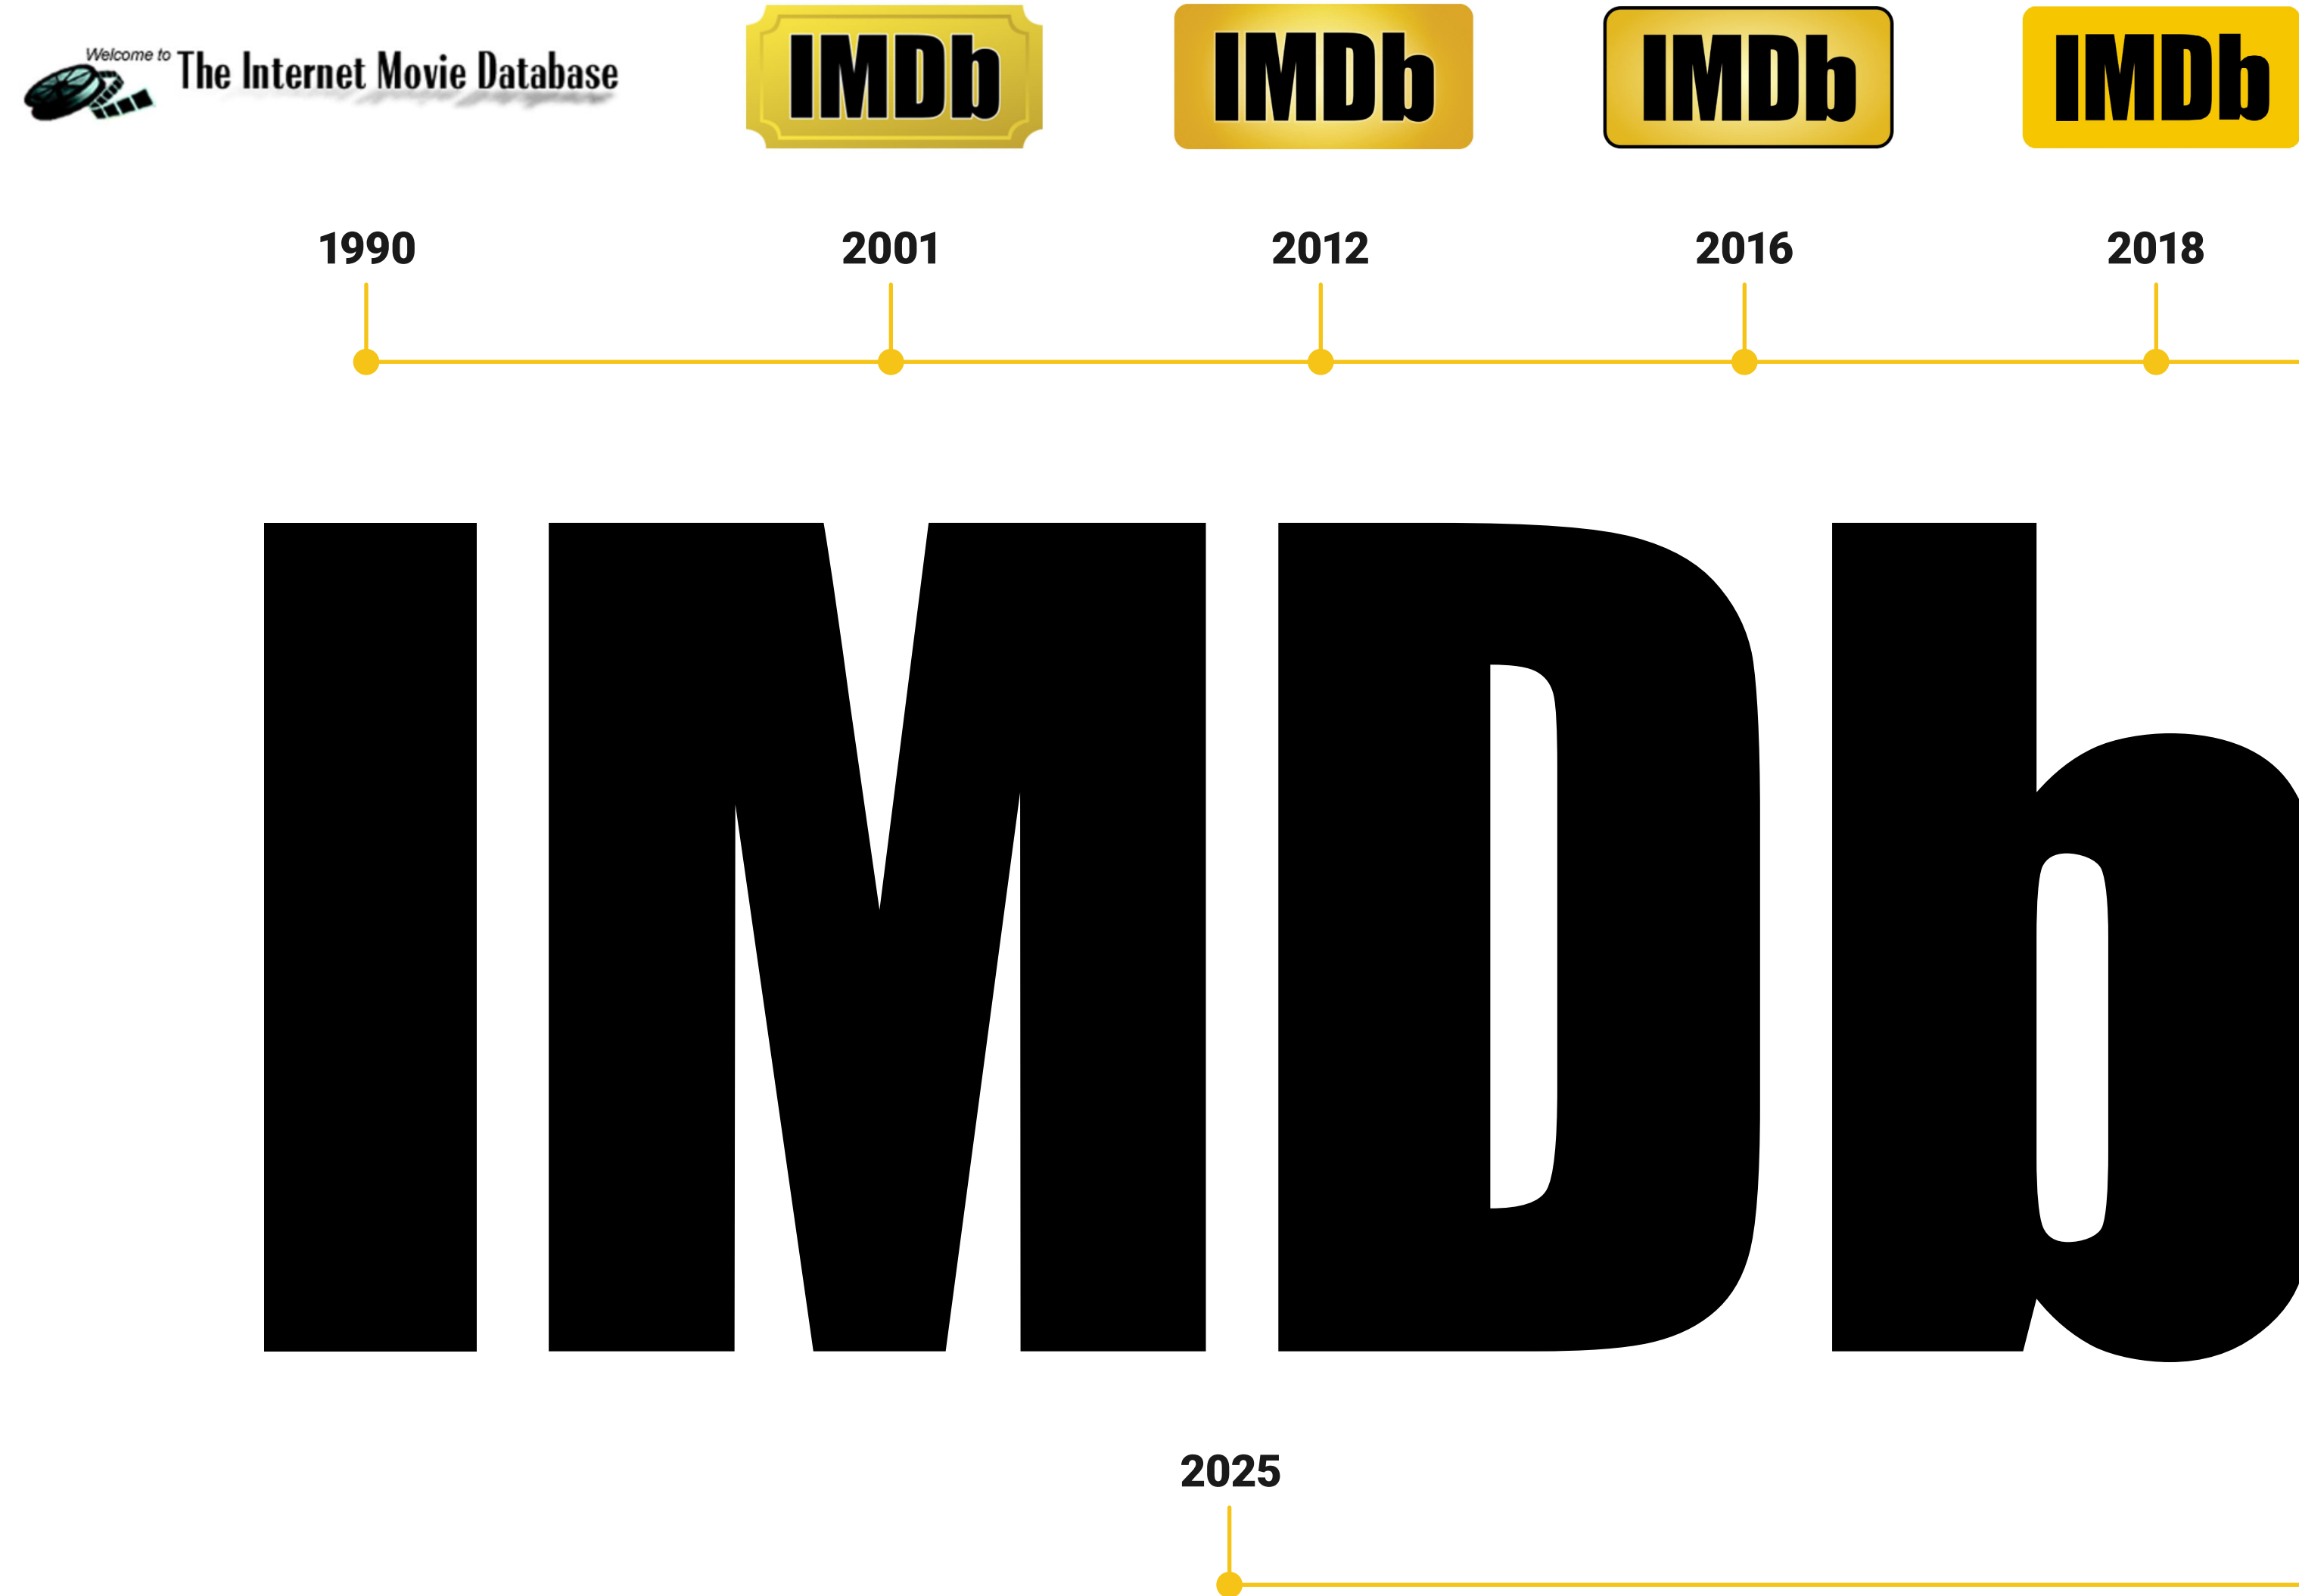

This toolkit contains our essential brand assets: logos, typefaces, colors, and basic standards for their use. Approved partners can request access to our complete brand guidelines at imdb-brand@imdb.com. By following these standards, you help us maintain the strength and integrity of a brand that has been connecting and inspiring the global entertainment community for over three decades. Please ensure you’re always using the most current version of these assets, as our toolkit is updated periodically.

Primary IMDb Logo

From a well-worn journal to a delightful Golden Ticket, the visual identity of IMDb has evolved alongside a vibrant and frequently upturned industry. We recognize that entertainment has expanded beyond the bounds of movie theaters and appointment viewing, and our updated logo reflects this omnipresent evolution. Moving away from the golden ticket and toward a clear, unfettered logo, the updated mark stands strong and ready to serve as a guidepost. It’s elemental, and allows the visuals of entertainment to take center stage.

IMDb permits its customers, partners, and the media to use our name, trademarks, and logos (the IMDb “marks” or “logos”) in limited circumstances and as specified in this guide. Use of the IMDb marks must abide by these guidelines; if you have a separate agreement with IMDb that addresses use of our brand, that agreement will govern.

Consistent use of assets strengthens brand recognition. This guide and the accompanying design toolkit help IMDb and our partners achieve global consistency across all of our digital and print communications.

IMDb Logo System

Clear Space
Please maintain the space of two “i”s around the logo in all placements.

IMDb ticket outline

Primary IMDbPro Logo

The updated IMDbPro logo is cleaned-up and camera-ready, with minute adjustments that make an impact, and a visual link between the entertainment professional with the vast database of IMDb. The IMDbPro logo is structured and built to seamlessly integrate with the IMDb logo, highlighting its position as our premiere sub-brand. We've simplified the lines and adjusted the letterforms to strengthen that visual connection.

2025 Update

IMDbPro

IMDbPro

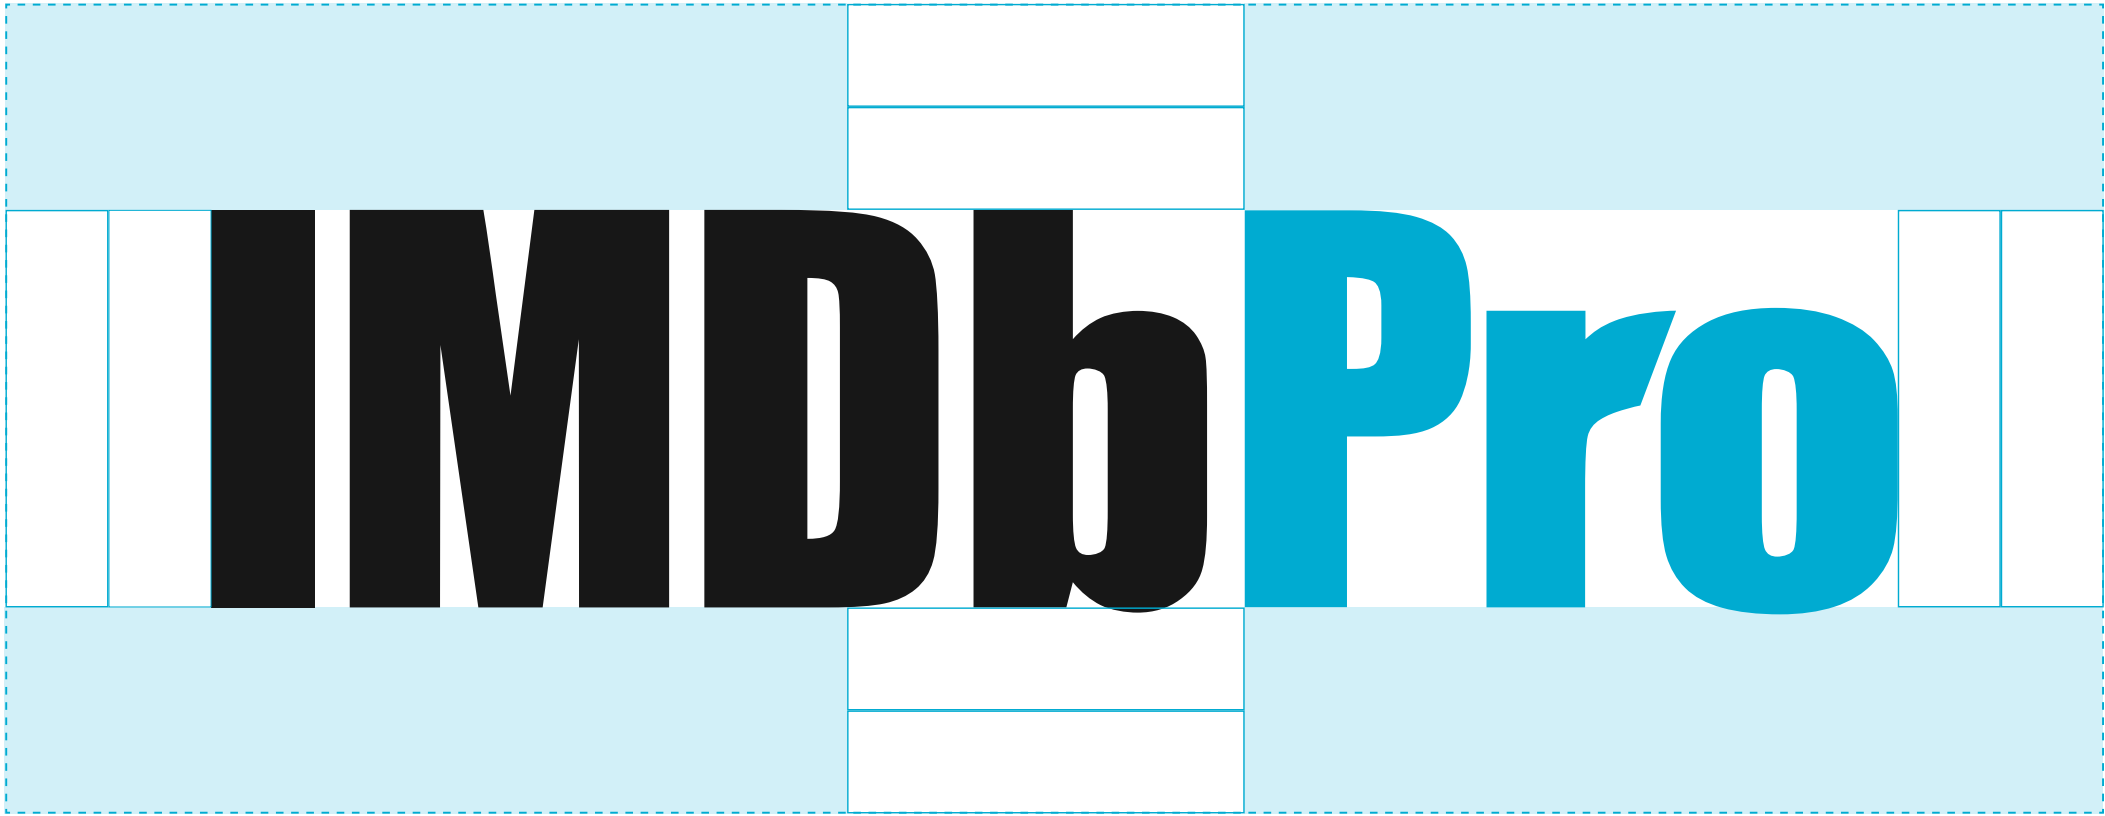

Old P,R,O □

New P,R,O ■

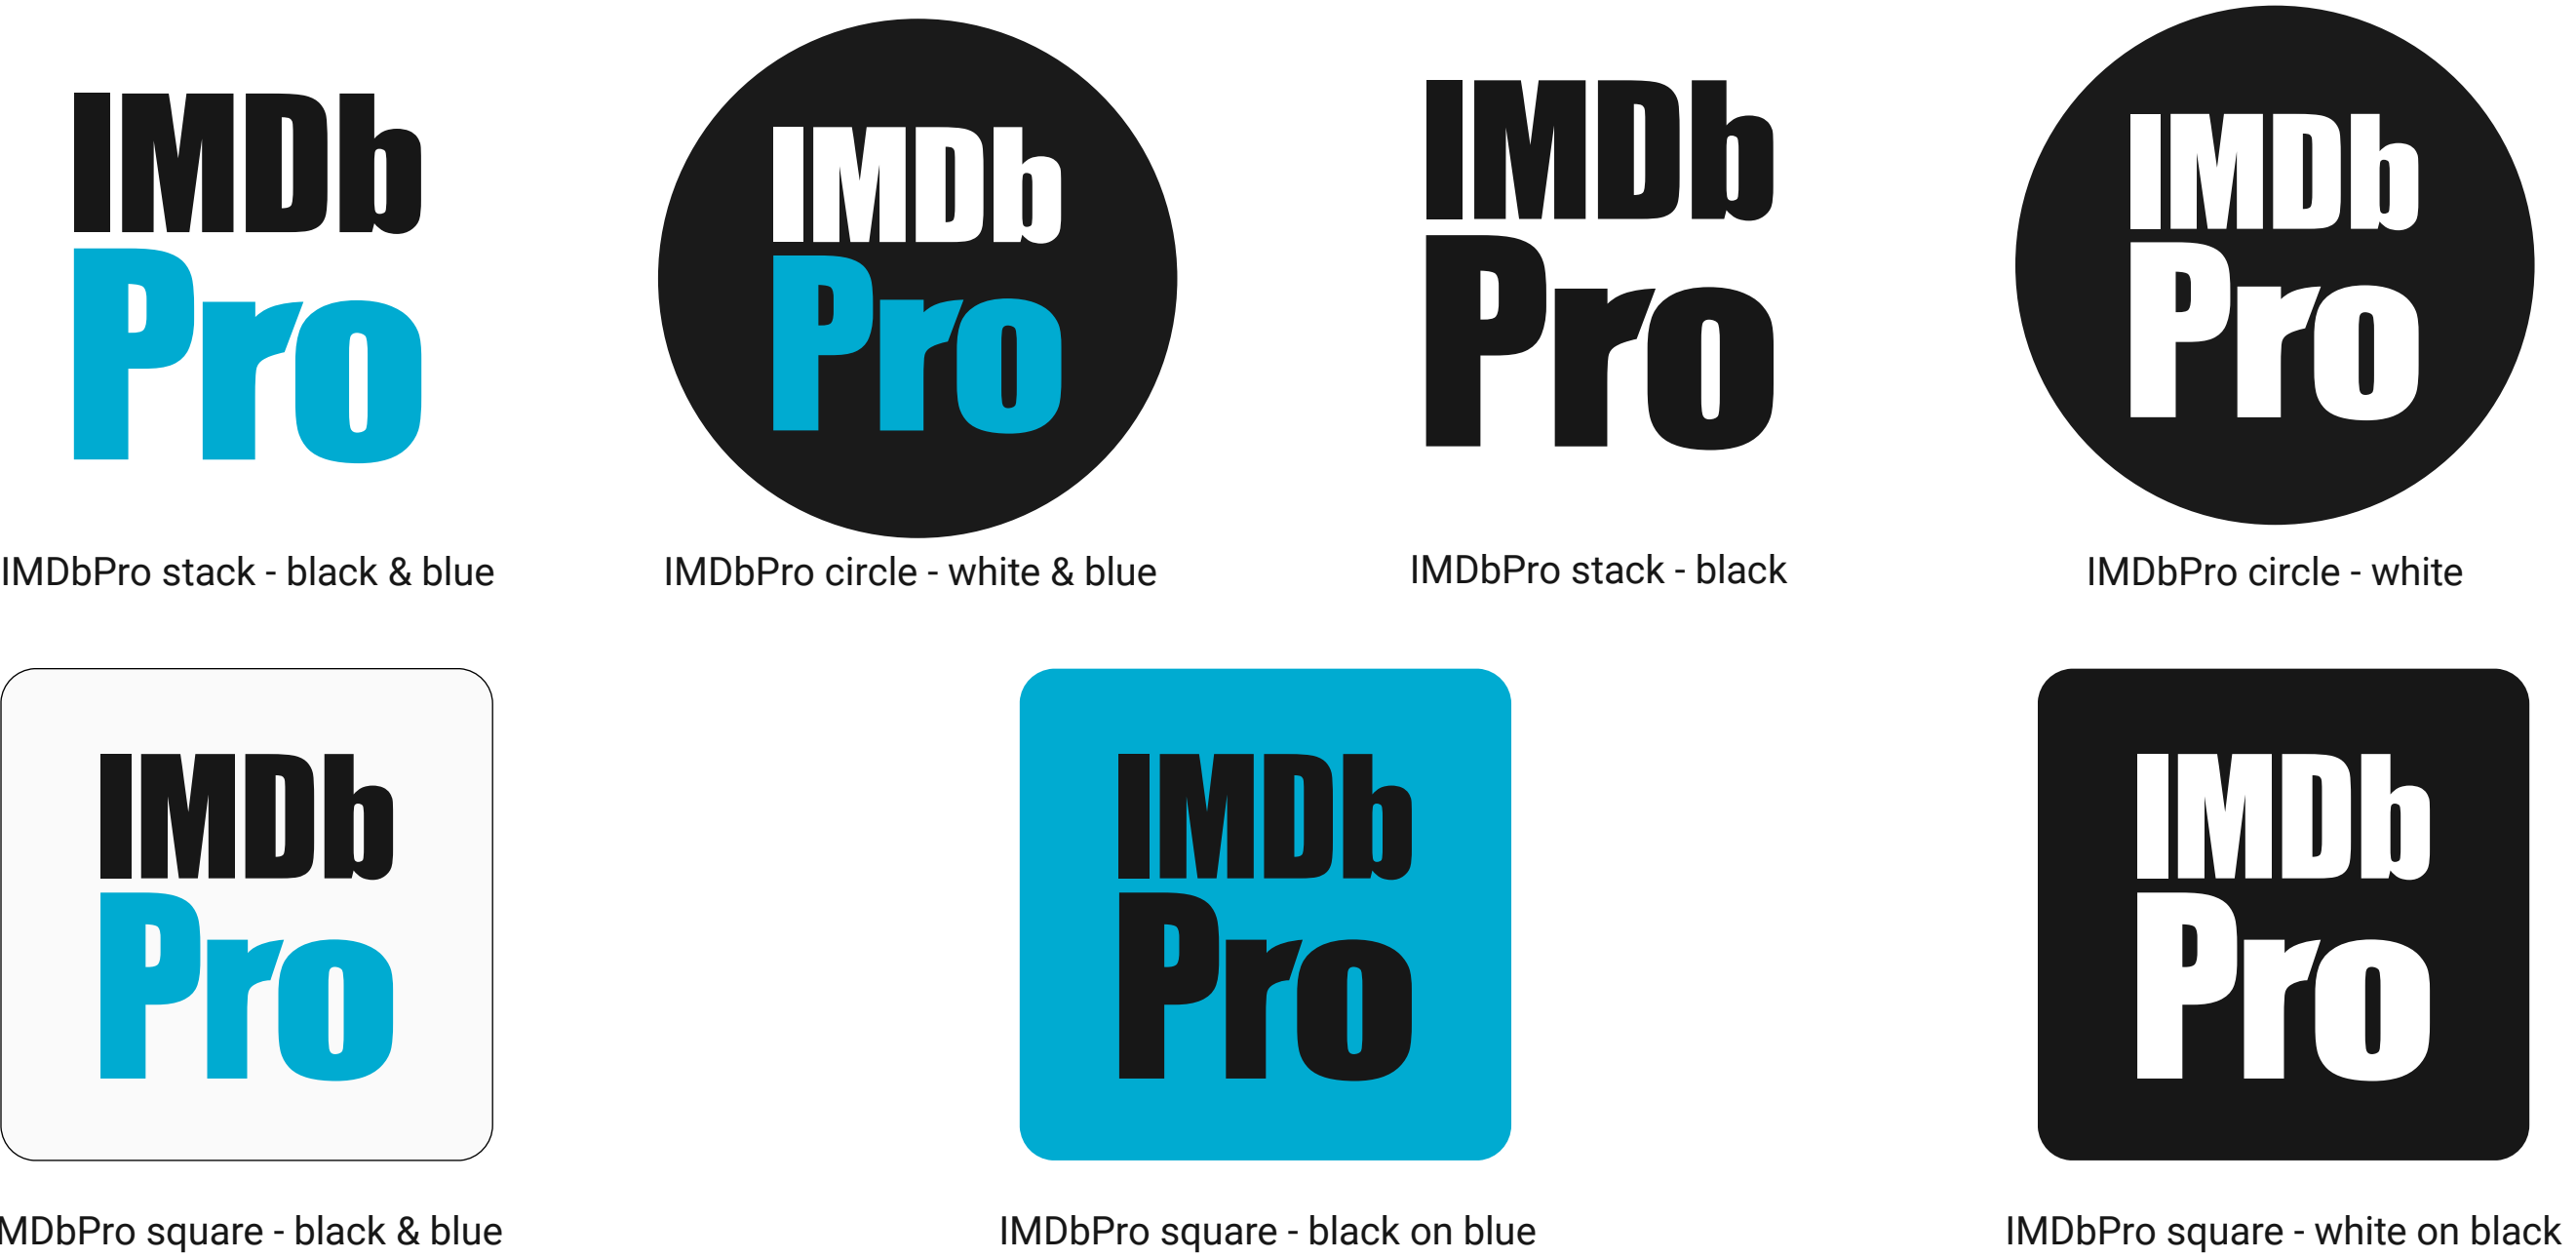

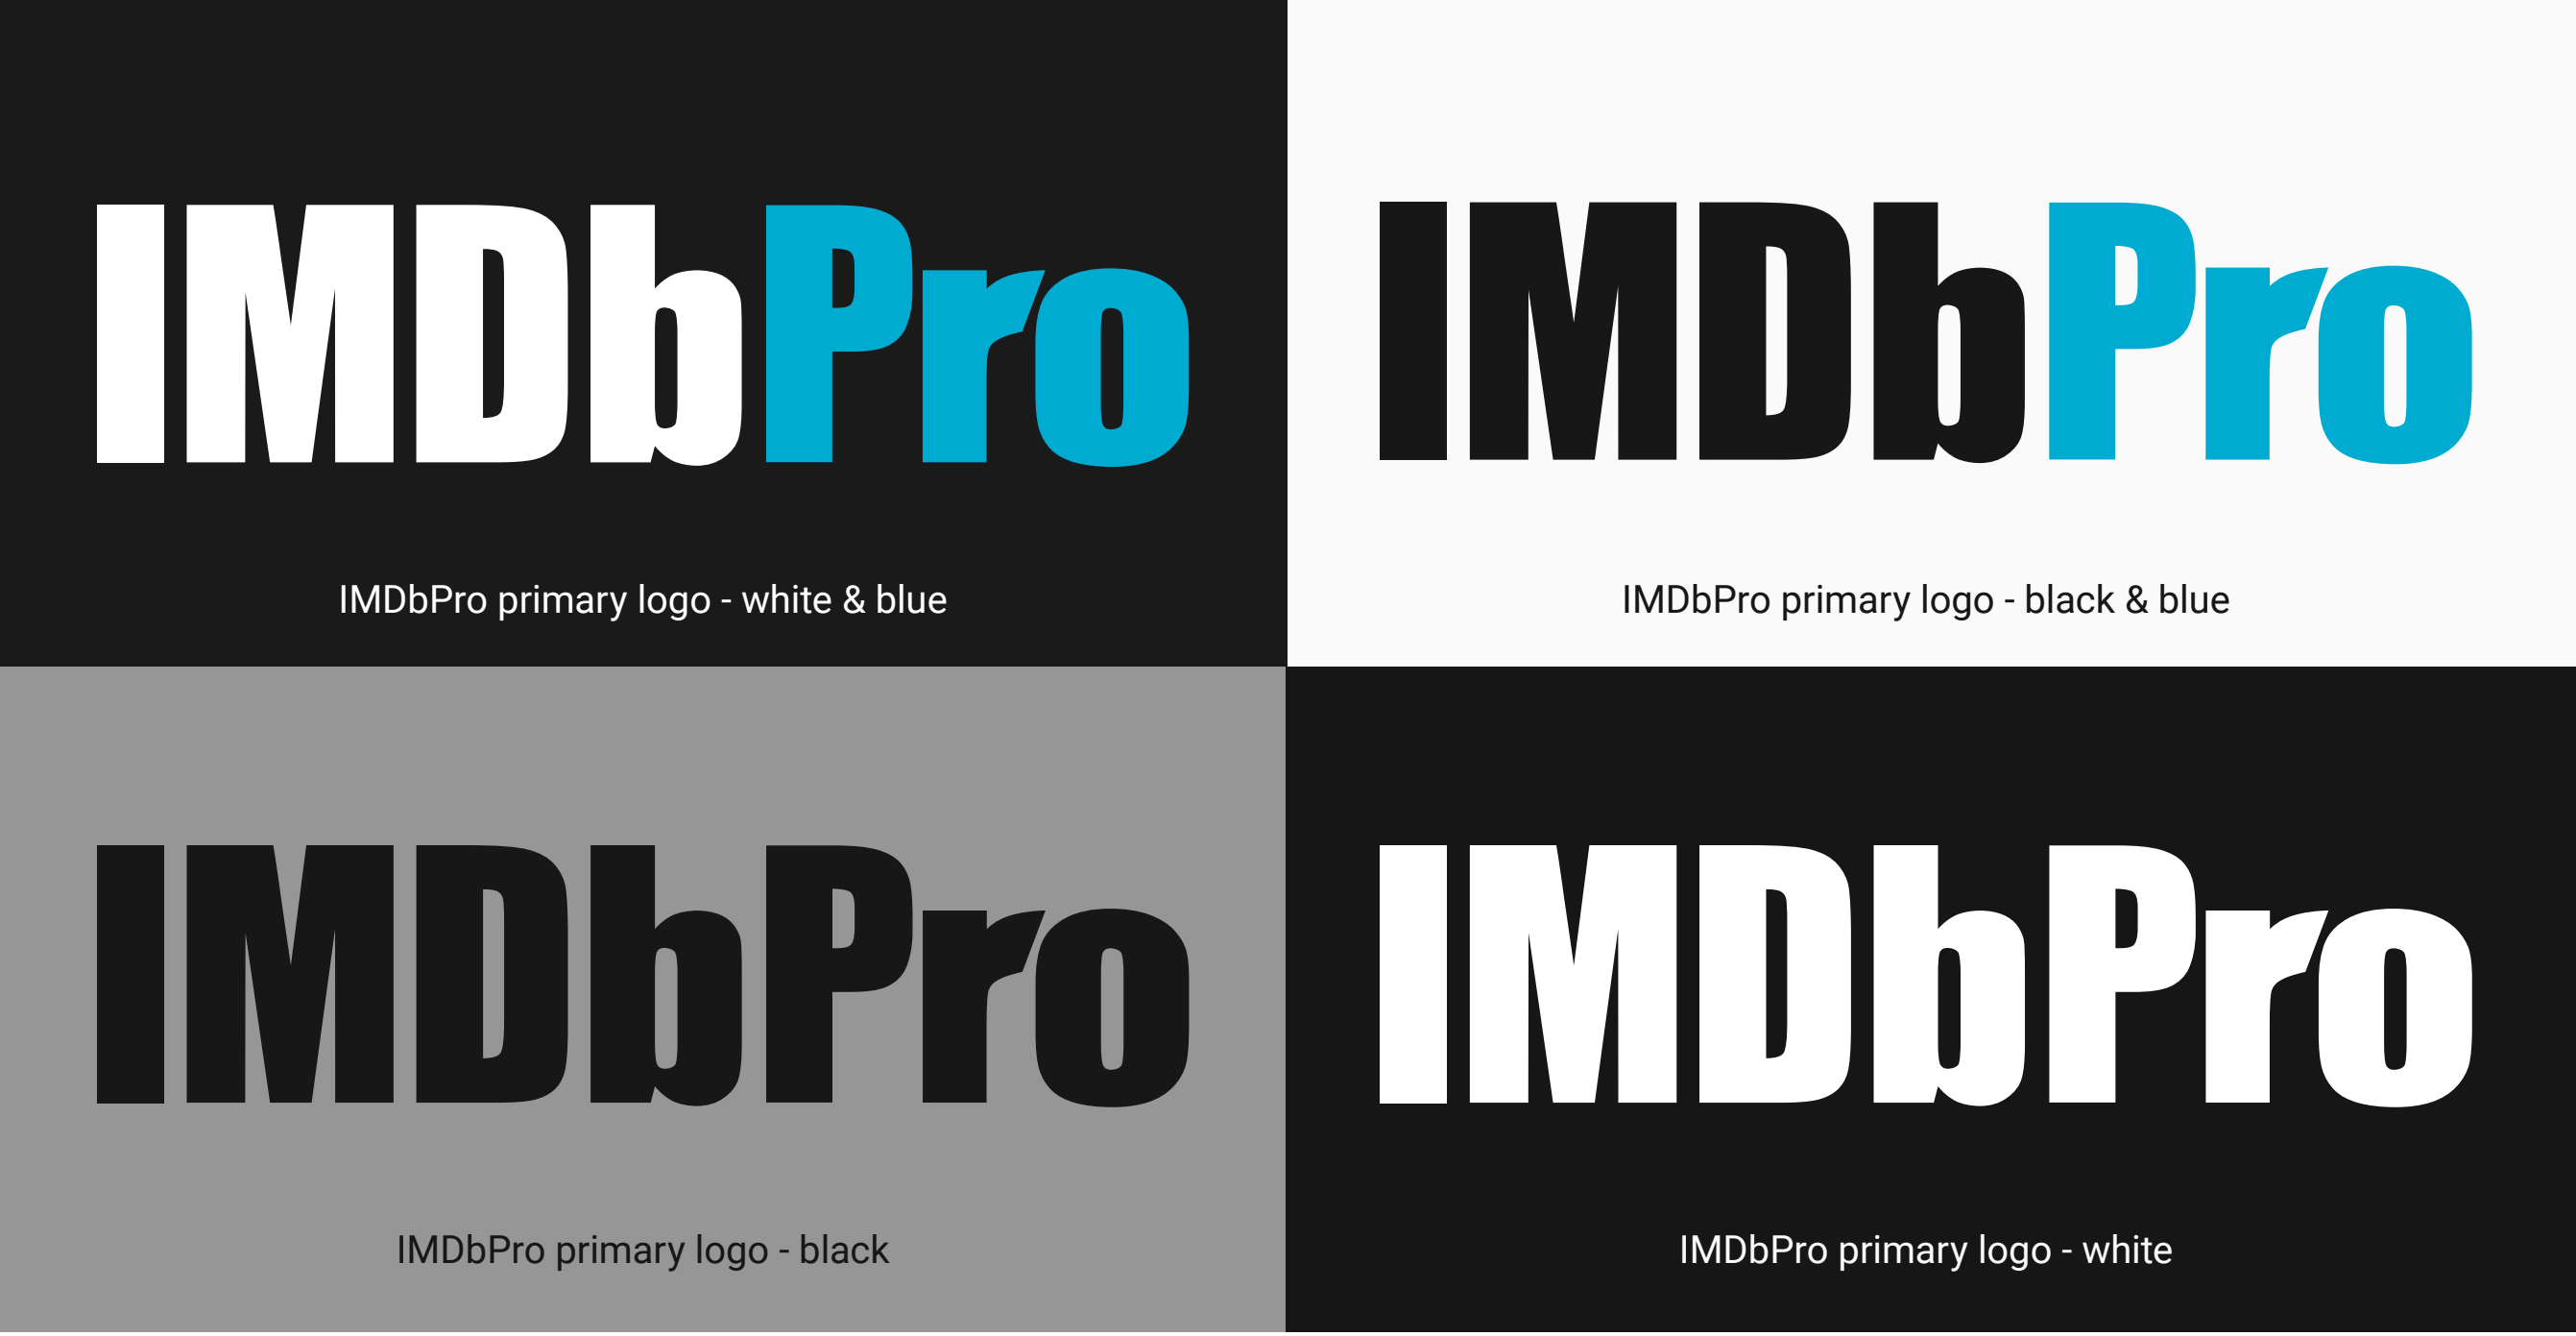

IMDbPro

What changed? The letterforms P, R, and O have been simplified and structurally aligned with the IMDb logo to aid in visual harmony and brand connection.

IMDbPro Logo System

Clear Space
Please maintain the space of two “i”s around the logo in all placements.

Logo Misuse

Don't change the logo color
Only use IMDb Gold, Klieg White, or Fade to Black.

Don't outline it
Avoid adding strokes to the logo.

Don't embellish it
No glows or drop shadows.

Don't make it weird
Please maintain logo integrity.

Don't get it twisted
Avoid stretching or rotating.

Don't abbreviate it
In the case of IMDbPro, use full logo.

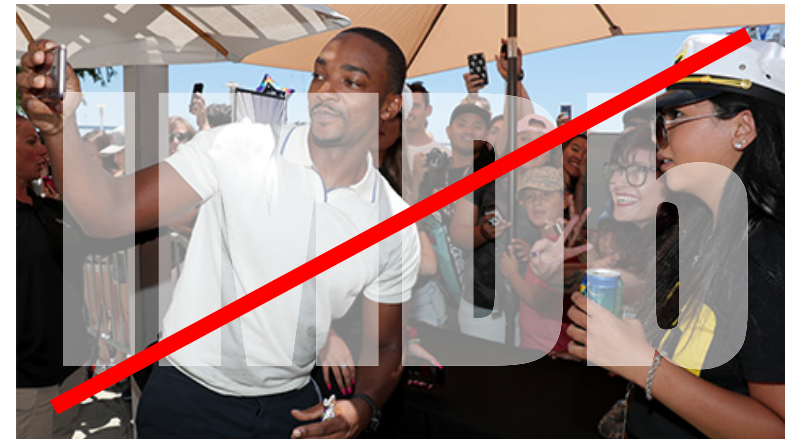

Don't design in a different font
Only use the wordmark for placements.

Don't use the logo as a frame
Avoid using the logo to house imagery.

Don't make them squint
Maintain logo legibility over backgrounds.

Don't lower opacity
Avoid adjusting transparency of logo.

Don't combine with text
IMDb logo should not be used as an accent.

Co-Branding

When IMDb is partnering with an Amazon, Amazon subsidiary, or third-party brand, follow these rules to create a co-branded lockup:

- Maintain consistent size and balance between the two, ensuring the partner logo is not scaled larger than IMDb.
- Default to single-color versions of all logos whenever possible to avoid clashing color palettes.
- The lockup should be separated by a vertical separator (pipe) with two i-sized spaces on both sides.

IMDb and IMDbPro logos should never appear together in a co-branded lockup. The default logo is IMDb, but if a sponsorship or event is specifically tied to IMDbPro, use that logo on its own.

Trademarks

The IMDb trademarks consist of IMDb, IMDbPro, STARMeter, and other brands and logos used to identify our IMDb services. Whenever you use any of our IMDb Marks, you must include the following attribution statement with any trademarks and/or copyright notice you provide for your own content.

“IMDb, IMDbPro, STARMeter, and all related logos are trademarks of IMDb.com, Inc. or its affiliates.”

The following guidelines govern the IMDb brand, and adherence upholds our brand identity. If you require an asset that is not available, contact imdb-brand@imdb.com. Please contact trademarks@amazon.com for broadcast, print and any deviations from the following:

a. No alterations: Do not alter the logo in any manner, including but not limited to, changing the proportion, color, font, or adding or removing any element(s).

b. Endorsement: Do not use the Marks in any manner that implies sponsorship or endorsement by IMDb or Amazon.

c. Disparagement: Do not use the Marks to disparage IMDb, its products or services, or in any manner which, in IMDb’s sole discretion, may diminish or otherwise damage or tarnish IMDb’s goodwill in the Mark.

d. Combination: Use the IMDb Mark by itself, with reasonable spacing between each side of the mark and other visual, graphic or textual element. Under no circumstances is the Mark to be placed on any background that interferes with the readability or display of the mark.

e. No improper use: Do not use Marks as a verb or pun (e.g. Just IMDb that movie.) Do not use the Marks in possessive form (e.g. IMDb’s content selection) or in plural form (e.g. Look at all the IMDbs for that actor.)

f. Attribution: Do not use TM, or ® symbols beside the Marks. Unless otherwise instructed by IMDb, the following attribution language should be included in materials that display Amazon Trademarks: “IMDb, IMDbPro, STARMeter and all related logos are trademarks of IMDb.com, Inc. or its affiliates.”

g. Objectionable use: Do not display the Marks in a manner that is misleading, unfair, defamatory, infringing, libelous, disparaging, obscene or otherwise objectionable to IMDb.

h. Termination: IMDb may ask that you stop using the Marks at any time, and you agree to stop using the Marks within a reasonable time following a request by IMDb. At no time will you take more than three (3) days to discontinue your use of the Marks.

i. Reservation of rights: IMDb is the owner of all rights in the Marks and reserves all rights not specifically granted as part of this limited license. Your use of the Marks pursuant to this license shall not be construed as limiting any of IMDb’s rights in the Marks.

j. Use by our advertisers: At IMDb, we are committed to protecting our brand identity and ensuring that our entertainment fans receive a consistent and high-quality experience when interacting with our advertising products and services. As part of this commitment, we enforce strict limitations on the use of our logos and trademarks by third-party advertisers and partners. At the same time, we see value in our ability to surprise and delight our audience by (in some approved cases) customizing IMDb trademark logo to fit a movie or TV show’s IP style. These limited customizations are approved for certain advertisers and advertising products. Given our love for entertainment, we will bias toward these entertainment IPs versus those that are entertainment adjacent.

We encourage all interested advertising parties to review our logo and trademark usage guidelines and to seek our permission before using any of our logos or trademarks in any capacity.

Brand Colors

Anchored by our brand signatures, IMDb Gold and IMDbPro Blue, a neutral range of off-black, gray, and white round out the core palette. A symbol of quality, the vivid gold conveys the trust our fans place in us as a resource, while balanced blue telegraphs a steadfast companion with their eyes on the prize.

Accent Palette

This secondary palette celebrates the vivid world of film and television, matching the energy and excitement felt in darkened theaters, at weekend watch parties, and on set from “ACTION!” to “CUT!” Designs will often incorporate photography or intellectual property and can potentially contain a full spectrum of colors; limiting how much color we add will help our brand stand out and highlight our designs as uniquely IMDb.

When working with the IMDb brand, lean into the hero color, IMDb Gold, and accent with no more than two additional colors, or one gradient. When working without additional photography or assets, limit accent colors to no more than 25% of the composition.

Headline Typeface

Interstate is the approved font for all IMDb graphics and marketing communications. It is bold, flexible, and unique. It is acceptable and encouraged to use varying font weights to create visual interest and establish information hierarchy. Logo vector files are provided in the Design Toolkit; brand fonts links can be provided upon request.

For all secondary applications, utilize fonts in the **Roboto** family.

Writing About IMDb

Our name

Yes, we're the Internet Movie Database, but we go by IMDb.
A few more things:

- We don't include the article "the".
- The "b" is always lowercased.
- When you're referring to an IMDb chart or list, make sure to include "IMDb."
- IMDb should not be made possessive, e.g. "IMDb's point of view..."

Our features

We are proud to have originated proprietary features that our fans know and love, like Top 250, Watchlist, STARMeter, and more. We treat them as proper nouns and capitalize accordingly.

Our ratings

IMDb ratings reflect the opinions of a global aggregate of fans, and they are a core part of our value proposition. They help users find their next favorites and they guide industry insiders, too.

Within IMDb (on site and in app), an IMDb rating is composed of a star icon and a numerical rating, with a scale from 0 to 10. Outside of IMDb (on Prime Video, for instance), it is composed of the IMDb logo and a numerical rating.

Display of our ratings is limited to those entities that have entered into an agreement with IMDb to display that data, provided use conforms with the examples below. For more information on obtaining a license to IMDb data, please contact licensing@imdb.com.

Rating within IMDb

Rating outside of IMDb

Rating outside of IMDb (alternate)

Composition Titles

We diverge from AP guidance when it comes to styling titles of books, computer and video games, movies, operas, plays, poems, albums and songs, TV shows, speeches, and works of art.

- Movies: Use single quotes in headlines and body copy. Exceptions: When a graphic includes multiple movie titles (social media lists, watch guides), no special styling is needed. If titles appear in a graphic treatment (social, marketing asset), italics may be used to reduce visual clutter.
- Television: Use double quotation marks for both series and episode titles. As with movie titles, italicize if used in a graphic treatment.
- Digital graphics: For Originals or Social content (video thumbnails, trivia, infographics), use minimal styling to reduce visual clutter and preserve character count.
- Capitalization: While AP style capitalizes principal words, prepositions, conjunctions of four or more letters, and verbs including “is” and “are,” we defer to styling on IMDb title pages. This includes stylized capitalization unless it compromises legibility.
- First/last Words: Capitalize any article (a, an, the) or words fewer than four letters if they appear as the first or last word in a title.

CONTENT	Italics	Single quotes	Double quotes	No quotes
Movies	✓	✓		
TV shows			✓	
TV episodes			✓	
TV Movies			✓	
Web series			✓	
Music video			✓	
Video games			✓	
Stage plays			✓	
Musicals			✓	
Books			✓	
Magazines				✓
Newspapers				✓

Global note: Graphics for Originals and/or social or marketing assets may use italics across content types to reduce visual clutter and save character count.

Word List

We defer to the primary spelling and styling indicated by Merriam-Webster (the first option listed vs. a variant), unless otherwise noted. Check the spelling of studios, titles, and talent names, even if you think you know it. Proofread, and never hesitate to recruit a second set of eyes. High-visibility typos stand to harm our reputation as a definitive, trustworthy resource, can make people feel slighted, and can even come across as cultural insensitivity. This list is only a start — if you’re unsure of how to spell or style something, please let us know so we can advise and add.

General

- awards show(s)
- bestseller (noun); best-selling (adjective)
- bingeing, not binging
- binge-watching
- castmates
- co-star(s)
- email, not e-mail
- homepage
- internet (capitalized only at start of sentence)
- LGBTQIA+
- login (noun, adjective); log in (verb)
- ly adjectives (no hyphen; e.g. hugely popular, not-hugely-popular)
- nonprofit
- OK
- online (capitalized only at start of sentence)
- opt-in (noun, adjective); opt in (verb)
- resume, not résumé

- signup (noun, adjective); sign up (verb)
- starstruck
- superhero, not super hero
- username
- URL
- website
- WiFi
- woman preferred over female

Branded terms

Core, proprietary features are treated as proper nouns. Some, but not all, may be paired with “IMDb” in type, but not a logo: IMDb Originals, IMDbPro Discover. Several proprietary terms (Advanced Search, Watchlist, Top 250, STARMeter, Search and Discover) remain capitalized even when they appear without “IMDb.” For all others, lowercase when used without “IMDb.”

- Advanced Search (NOTE: not capped on IMDbPro)
- IMDb Answers
- IMDb Badges
- IMDb Charts
- IMDb Explains
- IMDb Help Center
- IMDb Interests
- IMDb Interviews
- IMDb Originals
- IMDb On the Scene
- IMDb Picks
- IMDb Podcasts
- IMDb Ratings

- IMDb Reviews
- IMDb Spotlight
- IMDb STARMeter Awards
- IMDb Top 250 Movies/TV Shows
- IMDb Watchlist
- IMDbPro Discover
- IMDbPro Track
- Search and Discover (IMDbPro)
- Subscription for external use, Tier for internal (IMDbPro)
- The IMDb Studio (only used for physical locales, e.g. “The IMDb Studio at Acura Festival Village”)
